## About Me

I'm a Full Stack MERN Developer and UX/UI Designer, passionate about building intuitive and efficient web applications. I specialize in both front-end and back-end development, with a focus on clean code and user-centered design. Currently, I'm advancing my skills in JavaScript and responsive design.

## Projects

### ● Todo App

#### Description:

Developed a dynamic and interactive Todo app that allows users to add, edit, and delete tasks. The app provides an intuitive user interface for task management, with real-time updates and smooth user interactions. The project emphasizes core JavaScript functionality along with front-end skills.

#### Tools Used:

- **HTML:** For structuring the app layout.
- **CSS:** For styling and user interface design.
- **JavaScript:** For dynamic task management and CRUD operations.

### ● Basic E-Commerce Application

#### Description:

This project is a simple e-commerce web application built using HTML, TailwindCSS, and JavaScript. It allows users to browse a list of products, add items to a shopping cart, and proceed to checkout. The app dynamically updates the cart, ensuring a smooth user experience with intuitive product management.

#### Tools Used:

- **HTML:** For page structure and content layout.
- **TailwindCSS:** For responsive and modern styling.
- **JavaScript:** For dynamic functionality (Place order/removing products, Placed Successfull).
